

FARM VISITOR LOGBOOK

Digitize your visitor logbooks

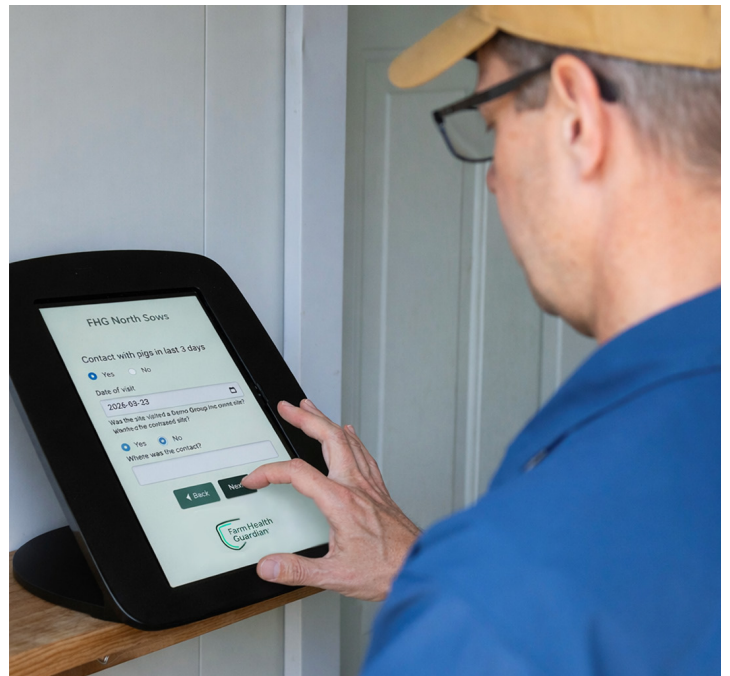

Farm Health Guardian digitizes the farm visitor logbook, eliminating the inaccuracies of paper-based systems and allowing for instant access for audits and in the case of outbreak investigations.

NO MORE CLIPBOARDS

Go digital with your visitor records.

- ✔ Replace paper logbooks with a simple digital check-in system.
- ✔ Keep all your visitor records in one place, secure and easy to access anytime, from anywhere.
- ✔ Support better biosecurity across your farm properties.

All data in one place

HOW IT WORKS

1. Customize questions in software

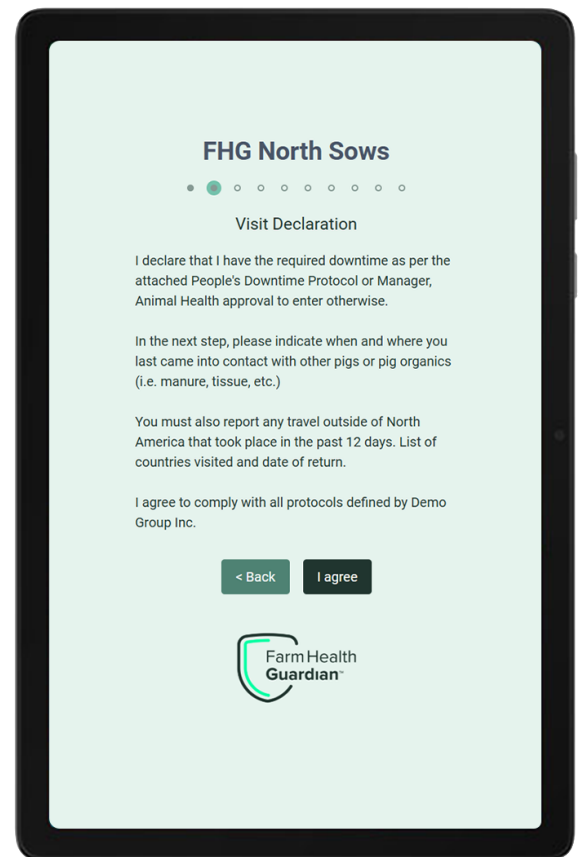

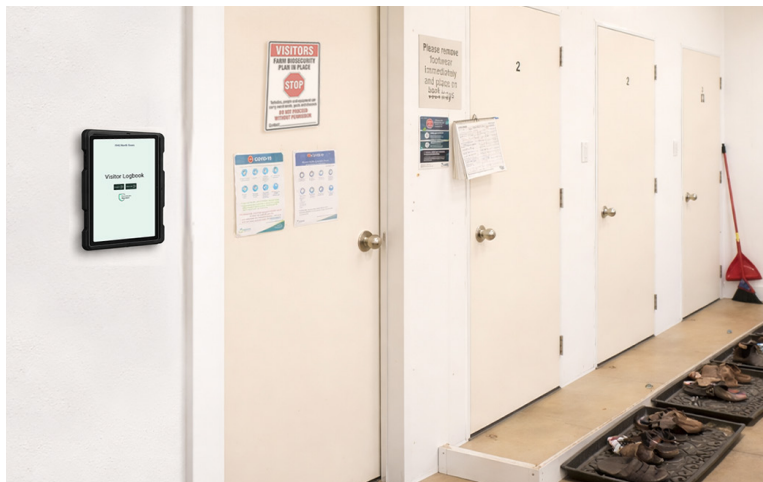

Select or add biosecurity questions suited to your operation.

2. Set up the device at entrance

Place the device at your entry point, either on a desk or wall-mounted.

3. Visitors check-in

Workers and visitors complete a quick digital sign-in on the screen.

Use the *Farm Health Guardian* **Farm visitor logbook** for better visibility and stronger biosecurity across your farm operation.
